Network Outlet

ANO 101(Network Outlet)

Description

"Alfan Network Outlet" can be used in home, office and other indoor environment to cleanly attach telecommunication networking cables (i.e cat6) to a junction box. The users can connect a computer to the network via this outlet. This outlet suits cat6 jacks quite well**.**

Note: this type of outlet is not smart.

Features

- Domestic outlet compatible with cat6 jacks.
- Ability to install without the need for destruction and additional wiring.
- Ease of cleaning due to smooth and uniform surface.
- Stability in the high range of temperature and humidity.
