

## TV Antenna Outlet

### Description

"Alfan TV Antenna Outlet" is designed to accommodate solid core conductor coaxial cable with insulation (dielectric) to approximately 5mm diameter for solder less connections. The users can connect a TV to antenna signals via this outlet.

**Note** that this type of outlet is not smart.

### Features

- Domestic outlet compatible with coaxial connectors.
- Ability to install without the need for destruction and additional wiring.
- Ease of cleaning due to smooth and uniform surface.

## Technical specification

Product Name	TV Antenna Outlet
Model	ATO 101
Frequency Range (MHz)	5 - 850
TV Connector	IEC-han
Shielding Efficiency	EN50083-2 (Class A + 10dB)
Reflection Attenuation TV (dB)	> 18.0 (@ 5 ... 40MHz) dB
Impedance ( $\Omega$ )	75 $\Omega$
<b>Mechanical specification</b>	
Dimension (L×W×H) [mm]	81×81×44
Operating Temperature	-10°C - 60°C
Operating Humidity	10% - 80%
Cover Material	Glass
Color	White (customizable)
Ingress Protection (IP)	IP20
Operating Environment	Indoors
Weight( gr)	180
